

BEAD MAKING BOOKS & VIDEOS

With many bead making books and videos to choose from, we're sure to have just the right information for your next bead project. Select from any of the bead making books and videos below.

You Can Make Glass Beads - Jenkins

With this book and a few hours of practice, you can be making uniquely beautiful glass beads of our own design. Information on tools, and illustrated step-by-step instructions for making a basic glass bead. Safety guidelines, introduction to special effects and a trouble shooting guide.

Stock Number: 60933
Each: \$12.35

Beads Of Glass - Jenkins

We're sure this collection will inspire budding bead makers as well as professional bead makers. This book full of color photography that shows the works of bead makers from all over the world. Included are great step-by-step tips on many basic and intricate techniques: you can learn how to paint on beads, create a twisted bead, stencil powders, and control your dot placement, to name a few.

Stock Number: 60934
Each: \$31.95

Complete Book of Glass Bead Making - Adams

Shown on the pages of this colorful book are all the most popular types of beads and the newest creative techniques. The instructions begin with the basics and build up from there; experimenting with enamel, using mica powder, and applying silver, gold and copper leaf to layers of glass. Hard bound, 160 pages all in color.

Stock Number: 60908
Each: \$25.06

Flameworking Book - Mears

Learn to manipulate hot glass to make beautiful flame worked shapes and objects that can be assembled into larger sculptural and functional pieces. Techniques are explained so even a beginner can understand and learn. Detailed and easy to follow exercises that are brought to life by sophisticated projects. Illustrations explain the entire artistic process; includes a discussion of the different types of glass to you can choose from, as well as tools and safety equipment.

Stock Number: 60824
Each: \$12.05

Mastering The Glass Bead Video Book - Stavert

Anyone can create a bead using a simple torch head; Karen will show you how! Karen Stavert, a 6-year glass bead making veteran, delivers an inspiring and enthusiastic 40-minute class right to your home. From two simple basic shapes, she will show you how to create a multitude of different beads. Karen also gives a step-by-step explanation of safety procedures and tool usage.

Stock Number: 60FW736
Each: \$30.61

BEAD MAKING KILNS

With many bead making kilns to choose from, we're sure to have just the type for your next bead project. Select from any of the bead making kilns below.

Skutt Bead Kiln - 10" X 9"

Perfect for annealing beads. The door comes with a wooden handle which is mounted away from the heat and allow you to the door without gloves. The Skutt Bead Kiln has a 10" x 9" opening and is 9" deep. The GlassMaster controller is also standard on this unit. The accurate and stable temperature provided by the controller is perfect for annealing. It's extremely portable and works on standard household current.

Stock Number: 20GM10F
Each: \$1,050.00

Skutt Bead Kiln with Bead Door - 10" X 9"

Perfect for annealing beads. The kiln comes standard with a side hinged door and an easy to operate bead door. Both doors come with wooden handles which are mounted away from the heat and allow you to open them without gloves. The Skutt Bead Kiln has a 10" x 9" opening and is 9" deep. The GlassMaster controller is also standard on this unit. The accurate and stable temperature provided by the controller is perfect for annealing. It's extremely portable and works on standard household current.

Stock Number: 20GM10FBD
Each: \$1,140.00

BEAD MAKING REAMERS & BRUSHES

Beads don't fit? These reamers should fix your problem.

Fireworks Bead Hole Brush

This Bead Hole Cleaner is coated with the finest diamond abrasive for a more effective and efficient removal of bead release residue. To use, simply push the narrow diamond coated rod back and forth through the hole in your bead.

Stock Number: 20FW724
Each: \$4.15

BEAD MAKING SUPPLIES

HotLine Air Dri Bead Release 8 oz.

Ideal for pre-coating and air drying steel mandrels. Ready to use as needed.

Stock Number: 25HOT26
Each: \$7.95

HotLine Pink Slipper Bead Release 7 oz.

Release and lube for steel mandrels. Coats with one dip. Has enough cover to hold a large bead while being manipulated. Releases cleanly. Dip it and go is recommended.

Stock Number: 25HOT24
Each: \$10.20

Fireworks Bead Release 8 oz.

Powdered releasing agent that is mixed with water to a creamy, thick consistency. Used to coat the ends of your mandrels to prevent glass beads from sticking. Can be flame or air dried.

Stock Number: 25FW731
Each: \$10.50

HotLine Fusers Glue 4 oz.

For holding glass layers, stringers and fractures in place while assembling for fusing. Also for frit casting on vertical walls. Will not leave carbon spot residue.

Stock Number: 25HOT27
Each: \$6.70

BEAD MAKING TOOLS

With many bead making tools and supplies to choose from, we're sure to have just the type for your next bead project. Select from any of the bead making tools and supplies below.

Fireworks Beginner Bead Making Kit

Interested in bead making, but didn't know where to start? With this kit and a little practice, you'll be making your own unique glass beads in no time. The kit includes step-by-step instructions, a Fireworks self-igniting torch head, 10 mandrels, dual sided marver plate, rod scrubber, heat resistant work surface (14" X 17"), bottle holder, bead release, 15 Italian glass rods and one fiber blanket to cool the beads.

Stock Number: 20FW632
Each: \$114.95

Annealing Blanket

Used to cool hot pieces from the torch. Cools projects slowly, allowing glass to be less brittle. 2 Pieces 6" X 12"

Stock Number: 20FHOT45
Each: \$9.45

1/16" Stainless Steel Mandrels

Keeps your fingers cool while working. The high heat from the flame does not transfer to your hands. 12" long 10 pieces per package.

Stock Number: 20HOT7
Each: \$4.00

Pin Vise

An inexpensive handle to hold your mandrels. Keeps your fingers cool.

Stock Number: 20HOT8
Each: \$3.00

Spatula Set

4 Stainless steel manipulators 8 different shapes. Excellent for adding detail and texture to your beads. Shapes may vary.

Stock Number: 20HOT23
Each: \$6.95

Fireworks Torch Head

An excellent choice for bead makers of any skill level, from beginners to more experienced lamp workers. This unique torch has a self-igniting system for easy use and a special regulator dial at the base of the nozzle that allows you to adjust the airflow. This control will let you change your temperature to make sure that you get true, clear colors for vibrant beads!

Stock Number: 20FW701
Each: \$49.95

Fireworks Mandrels and Bead Rake Set

Stainless steel mandrels have a low heat transfer, keeping your fingers cool while working in direct open flame. Bead rake manipulates molten glass by dragging, raking, feathering or swirling the surface. Use to make air bubbles or holes. Bent tip for comfort grip.

Stock Number: 20FW703
Each: \$9.40

3/32" Stainless Steel Mandrels

Keeps your fingers cool while working. The high heat from the flame does not transfer to your hands. 12" long 10 pieces per package.

Stock Number: 20HOT6
Each: \$5.00

Bead Rake

Manipulates molten glass by dragging, raking, feathering or swirling the surface. Bent tip for comfort grip.

Stock Number: 20FW726
Each: \$4.75

Fireworks Shaping Marver Set

Roll or press your glass into these 2" x 4" metal surfaces help you texture your beads. Get imaginative by rolling your beads across the surfaces at different angles!

Stock Number: 20FW708
Each: \$12.55

Fireworks Parallel Bead Press

To make flat beads place molten bead between the paddles and squeeze. Adjustable press height for a wide range of bead thickness.

Stock Number: 20FW711
Each: \$19.95

Hot Glass Shear Set (Set of 2)

These are used to cut off excess glass, reshape your bead, or cut the trailing edge of a molten glass rod. This set includes a pair of 5" shears and 6" shears.

Stock Number: 20HOT3
Each: \$13.95

Fireworks Stainless Steel Tool Rest

V-shaped design allows you to safely rest hot mandrels, glass and tools on your work surface for easy access. 7 1/2" X 1 1/2"

Stock Number: 20FW723
Each: \$7.30

Fireworks Graphite Paddle

Use paddle to shape molten glass. The extra long handle is designed to allow for a strong but comfortable grip. Graphite is lightweight and will not stick to hot glass. Paddle measures 2 x 3.

Stock Number: 20FW725
Each: \$12.55

Fireworks Bottle Holder

Clamps to the edge of table to securely hold Mapp or Propane bottles without slipping. Includes clamp, L-bracket and holder.

Stock Number: 20FW704
Each: \$10.50

BEAD MAKING TWEEZERS

12" Straight Tweezer

Stock Number: 20HOT11
Each: \$5.00

Fireworks Tweezer Set

Use to finish pieces in wire wrapping, or for a secure grip on warm glass.

Stock Number: 20FW707
Each: \$16.75

EYE PROTECTION

Don't even think about bead making without proper eye protection. Remember, eye balls aren't cheap. Proper eye protection is a sound investment.

Hot Glass Safety Glasses Model 700 (Regular)

These advanced version rose didymium glasses are recommended as eye protection for lamp-work using hot had torches and MAPP gas, or propane torches with soft glass. Also for periodically viewing kilns, acetylene torch work on silver and gold jewelry, enameling of jewelry and operations requiring occasional viewing of heat sources in excess of 1,000 degrees. Comes with side shields. The comfortable fit has been a safety industry standard for years. Not for use with high-pressure torches on hard materials where very high temperatures are generated or for sun protection.

Stock Number: 20SG700
Each: \$56.95

Hot Glass Safety Glasses Model 900 (Large)

Having a larger frame to fit over prescription glasses, these advanced version rose didymium glasses are recommended as eye protection for lamp-work using hot had torches and MAPP gas, or propane torches with soft glass. Also for periodically viewing kilns, acetylene torch work on silver and gold jewelry, enameling of jewelry and operations requiring occasional viewing of heat sources in excess of 1,000F. Comes with side shields. The comfortable fit has been a safety industry standard for years. Not for use with high-pressure torches on hard materials where very high temperatures are generated or for sun protection.

Stock Number: 20SG900
Each: \$59.95

RODS - COE 96

Cherry Red Semi Opal Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-1511-96E
Each: \$2.20

**Yellow Semi-Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-1611-96E
Each: \$2.20

**White Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-200-96E
Each: \$2.20

**Almond Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2107-96E
Each: \$2.20

**Dark Green Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2206-96E
Each: \$2.20

**Cobalt Blue Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2306-96E
Each: \$2.20

**Mauve Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2402-96E
Each: \$2.20

**Yellow Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2602-96E
Each: \$2.20

**Orange Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2702-96E
Each: \$2.20

**Champagne Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-2911-96E
Each: \$2.20

**Marigold Opal Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URO-355-96E
Each: \$2.20

**Pale Amber Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-1102-96E
Each: \$2.05

**Medium Amber Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-1108-96E
Each: \$2.05

**Dark Green Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-125-96E
Each: \$2.05

**Dark Blue Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-136-96E
Each: \$2.05

**Neon Orchid Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-476-96E
Each: \$6.20

**Moss Green Transparent Rod - COE 96**

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5262-96E
Each: \$2.05

Deep Aqua Transparent Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5333-96E
Each: \$2.05

Grape Transparent Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5432-96E
Each: \$2.05

Sky Blue Transparent Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5331-96E
Each: \$2.05

Navy Blue Transparent Rod - COE 96

Approximate rod dimensions: 5-6 mm x 50 cm.
Some breakage is common during shipping.

Stock Number: URT-5386-96E
Each: \$2.05
